www.LSF-LST.ca/institutes

Space is limited! Register at: www.LSF-LST.ca/institutes

Who should attend?

Grade 7 - 12 Educators of all subjects, School Administrators and System Leaders who wish to:

- Explore how to address the complexity of climate change learning through a professional inquiry approach
- Explore how to support climate change action projects that will bring inquiry and project-based learning for their students

Receive copies of:

- *Connecting the Dots*
- *Climate Change Resource for Teachers*

Focus

- Teaching & learning about climate change - one of the greatest challenges facing humankind - is complex. **Transformative learning strategies** can support you.
- This workshop addresses all aspects of managing a learning process in the context of climate change, including new **Ontario Ministry of Education commitments to climate change & community-connected learning**
- We follow a **professional inquiry model**. You will bring your experiences, pose questions, be provoked by relevant insights, & collaboratively navigate **curriculum, assessment, & the use of inquiry learning** and more transformative strategies in your classrooms
