Questions? Contact samantha@lsf-lst.ca

Who should attend?

Grade 7-10 educators of all subjects, school administrators and system leaders who wish to:

- Explore how to address the complexity of climate change learning through a professional inquiry approach.
- Explore how to support climate change Action Projects that will bring inquiry and project-based learning for their students.

Receive copies of:
- LSF's *Connecting the Dots*
- LSF's *Climate Change Resource for Teachers*
- Green Teacher's *Teaching Teens About Climate Change*

Focus

- Teaching & learning about climate change—one of the greatest challenges facing humankind—is complex. **Transformative learning strategies** can support you.
- This workshop addresses all aspects of managing a learning process in the context of climate change.
- We follow a **professional inquiry model.** You will bring your experiences, pose questions, be provoked by relevant insights, & collaboratively navigate **curriculum, assessment, & the use of inquiry learning** and more transformative strategies in your classrooms.

Brought to you by:
Learning for a Sustainable Future
LSF

In partnership with:
