

# Weather vs. Climate Sorting Activity:

Cut out the examples of weather and climate. Sort the cards in the right category.

Weather	Climate
<p><i>What conditions of the atmosphere are over a short period of time.</i></p>	<p><i>The average temperature and precipitation conditions in an area over a long period of time.</i></p>
<p>I need to wear a sweater today. It seems chilly.</p> 	<p>All year it is hot and humid in the rainforests.</p> 
<p>It has been really hot for the past week in my town.</p> 	<p>Usually it rains more in the spring than in August.</p> 
<p>It is going to rain on Saturday but sunny on Sunday.</p> 	<p>Geese fly south in the fall to look for food.</p> 
<p>Yesterday there was a snowstorm.</p> 	<p>The lake froze last night.</p>
